EDITORIAL

Welcome to the vibrant world of Kimood, **the luggage and accessories brand of the Kariban Brands group**, where style meets functionality to create pieces that will accompany you at every stage of your journey. Since 2010, we've been designing and manufacturing **bags and accessories for the communications market**.

Our mission is to provide **high-quality** accessories that don't compromise style or practicality. All our collections are dedicated to **corporate communication, incentives and events**. Each Kimood product embodies the harmony between aesthetics and utility, offering **intelligent solutions to simplify customisation**. We design items ready for branding, with areas dedicated to decoration, to help you **project your brand image or convey the messages of your event**.

For some years now, we have been favouring the use of natural materials such as **organic cotton and hessian**.

Kimood is helping to build a circular economy by using recycled fibres such as cotton and polyester. We pay particular attention to certifying our products with the most demanding labels, such as **OEKOTEX, GOTS** (Global Organic Textile Standard), **GRS** (Global Recycled Standard) and **OCS** (Organic Content Standard). We also offer a wide range of **EVE VEGAN-certified** products.

We attach great importance to respecting each other's work. **Our partner factories are BSCI and Sedex certified**.

At the same time, we regularly carry out audits to ensure that good working conditions are respected for factory workers. These audits are carried out by Kimood teams present on site. We work to reduce our impact on the environment on a daily basis. In addition to the use of eco-friendly materials in our products, for several years, we have been redesigning our packaging by gradually eliminating individual packaging and using boxes made of 70% recycled cardboard.

In 2024, we launched the **Kialma collection**: top-of-the-range business bags made from recycled materials, demonstrating our commitment to sustainability and eco-responsibility.

Browse our catalogue to discover our diverse range of bags, luggage, travel accessories and much more, each meticulously designed to meet the highest standards of quality, style and functionality.

At Kimood, we let the KI gently guide our Mood.

The Kimood team.

KARIWALA FACTORY & KIMOOD

KIMOOD IS COMMITTED

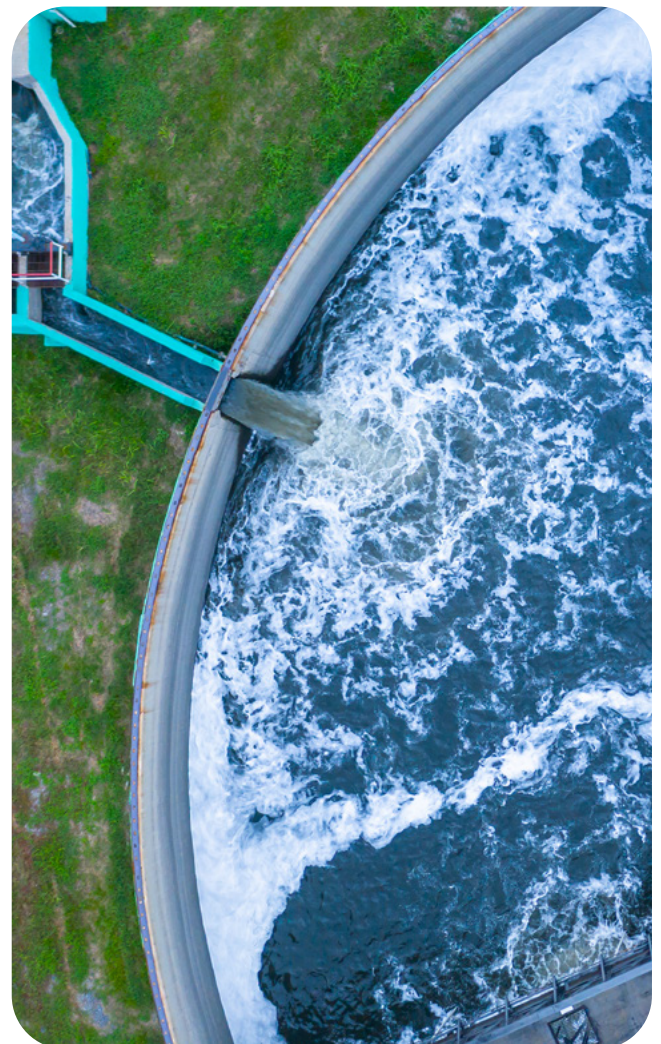

At **Kimood**, we are proud of our Franco-Indian partnership with the **Kariwala bag factory**. This collaboration is based on shared values of ethics and respect for people and the environment. We implement **sustainable initiatives to reduce our impact on the environment**, improve working conditions for employees and encourage cultural exchange based on mutual understanding. This partnership benefits both the factory's employees and the local ecosystem, demonstrating a **virtuous and progressive approach** to brand expansion

SAVING WATER

Kariwala Industrieis Ldt was declared winner in the SME category for its efforts to promote responsible business practices in industrial water management. The prize was awarded by the **Indo-German Chamber of Commerce** at the **Sustainability Innovation Awards 2022**.

The aim of the award is to highlight the innovative solutions offered by companies assessed on the basis of their **management, economic, environmental and social impact qualities**. However, it is also intended to raise awareness of the importance of conserving and sustainably using water in production processes.

The Kariwala factory has launched a project to recycle the waste water used in the production of our bags. The aim is to **make the water reusable for watering plantations**, instead of dumping it down the drain. This ultimately reduces water wastage and preserves natural resources. By treating and using wastewater, freshwater resources are protected and the quantity of water discharged is reduced, helping to **minimise pollution** and **protect aquatic ecosystems**.

KARIWALA FACTORY & KIMOOD

TREE PLANTING

Planting a tree for every \$1,000 in sales is the remarkable project that has been set up in partnership with the **Gram Samriddhi Foundation (GSF)**. The Gram Samriddhi Foundation is a non-profit organisation based in India.

This foundation generally focuses on projects and initiatives aiming to promote rural development, the empowerment of local communities, education, health and other areas related to improved living conditions in rural India.

The partnership between **GSF** and **Kariwala / Kimood** is proving to be a fruitful combination. The GSF commits to tree planting in remote rural areas with a strong governance mechanism to oversee operations on the ground, while Kimood and Kariwala contribute by offering their support. These combined actions have a significant impact on the earth and generate a huge number of jobs. Up to October 2023, this partnership has resulted in the planting of **441 trees** and the creation of **9,606 jobs**, demonstrating their shared commitment to sustainability and economic growth.

CERTIFICATIONS

KARIBAN BRANDS

EGL N°165651 / KARIBAN

EGL N°165651 / KARIBAN

The OCS standard checks the presence and proportion of organic raw materials mixed with conventional or synthetic raw materials in an end product. OCS 100 for items designed with a minimum of 95% organic raw materials and OCS Blended for items designed with a minimum of 5% organic raw materials.

EGL N°165651 / KARIBAN

EGL N°165651 / KARIBAN

The RCS standard checks the presence and proportion of recycled content in a finished product. The entire production chain is carefully verified by a third-party organisation to guarantee transparency. RCS 100, with a minimum of 95% recycled content and/or RCS blended, with a minimum of 5% recycled content.

Expertise Vegan Europe, better known under the EVE VEGAN label (registered trademark), is an international monitoring and labelling organisation for vegan products, i.e. animal-friendly and excluding any products derived from animals.

AT KARIBAN BRANDS, OUR COMMITMENT TO ECO-RESPONSIBILITY IS REFLECTED IN THE CERTIFICATION OF THE TEXTILES AND ACCESSORIES OF OUR SIX BRANDS. THE MATERIALS USED IN THE MANUFACTURE OF OUR PRODUCTS ARE CAREFULLY SELECTED AND SUBJECT TO REGULAR CHECKS IN LINE WITH STRICT CERTIFICATION STANDARDS.

THESE LABELS TESTIFY TO OUR COMMITMENT TO OUR ENVIRONMENT, CUSTOMERS AND END CONSUMERS.

EGL N°165651 / KARIBAN

Global Organic Textile Standard, the strictest certification for textiles made from organic fibres. It tracks the entire production chain starting from the cotton fields: from harvesting to fibre production, garment assembly to the finished product, followed by printing and even export.

EGL N°165651 / KARIBAN

The GRS (Global Recycled Standard) aims to control the recycled content of intermediate and finished products. This involves checking that companies' manufacturing processes, as well as their social and environmental practices, are sustainable and responsible. It guarantees the requirements and accuracy of the certification issued.

**STANDARD
100**

CQ 1007/6
IFTH

www.oeko-tex.com

The "Confidence in textiles - harmful substances according to Standard 100 by OEKO-TEX®" label is an international certification that meets the needs of stakeholders in the textile supply chain and consumers in terms of health protection. This certification guarantees the absence of harmful substances or those that may present a risk to health and the environment.

K-LOOP PROJECT

Respect for the environment and traceability are the keywords for the K-loop and K-loop tracking collections.

The key approach in this project is the use of recycled material as well as the concept of completely transparent tracking of every step in a product's creation for end consumers.

With "K-loop", Kimood is closing the circular economy loop. This means that the fabrics used in K-Loop products are made from production off-cuts from KARIBAN BRANDS products.

These off-cuts are sorted by colour and shredded to restore the original fibres. They are then mixed with recycled polyester from plastic bottles, which makes the final product even stronger. The main idea behind the K-Loop project is to reduce textile waste, recycling and the reclamation of raw materials.

To ensure that this approach is transparent and verifiable, Kimood has worked on the possibility of tracing these products from design to distribution.

THE TOTE BAG THAT HERALDED THE START OF THE K-LOOP PROJECT – KI5808

The KI5808 tote bag is the first item to be launched in the K-Loop collection and is made from cotton left over from the manufacture of Kariban cotton t-shirts and polyester from recycled plastic bottles.

TRACEABILITY: AWARE™ TECHNOLOGY

Discover our K-loop tracking collection, a range that guarantees total transparency at every stage of production. Thanks to blockchain Aware™ technology, you can verify the authenticity of the Polylana® fibre used in our products. Certified Impact Aware™, this fibre ensures total integrity, backed by our commitment to environmentally friendly practices. Simply scan the QR code on our special label to access the Aware™ platform and authenticate certifications via your smartphone. With the Kimood and K-up brands, we are committed to adopting eco-responsible measures such as saving water, reducing waste, recycling plastic, reducing our carbon footprint and ensuring the traceability of our products.

During the weaving process, tiny particles of Aware™ technology are incorporated into the yarn, creating a **distinctive and everlasting fingerprint**. This data can then be easily scanned and consulted.

Our collection is the result of an ingenious fusion between **Aware™ tracers** technology, **Polylana®** yarn (made from recycled polyester and conventional polyester) and **blockchain** (offering secure information storage).

Thanks to a simple scan, it is possible to quickly detect whether genuine certified recycled yarn has been used in a final product (by reading the tracer) and to verify the declarations (such as impact data and mass balance) recorded in the blockchain. The integration of the Aware™ component is adaptable to all types of recycled materials, offering numerous application perspectives. Above all, it guarantees **total commitment and transparency for the end consumer**. This process makes it possible to create a unique and lasting fingerprint for each product.

A RANGE MADE ENTIRELY OF POLYLANA®

Discover our collection made from Polylana® (50% recycled polyester / 50% polyester), an innovative material that makes no compromises on quality or aesthetics.

Polylana® yarn is Impact Aware™ certified, guaranteeing total integrity at every stage of production. Thanks to the Aware™ blockchain platform, you can verify the authenticity of Polylana® fibre. A special label with a QR code allows you to access the Aware™ platform directly and authenticate certifications using your smartphone.

GLOSSARY

Water repellent materials have been treated with a product designed to repel water. Water flows in droplets and cannot soak into the fabric which remains breathable.

Made by hand.

Product machine washable up to 85° (industrial wash). The washing instructions refer only to the fabric; for prints or embroidery, follow the recommendations of the screen printer or embroiderer.

Product machine washable up to 60° (domestic wash). The washing instructions refer only to the fabric; for prints or embroidery, follow the recommendations of the screen printer or embroiderer.

Waterproof garment or fabric. The figure shown corresponds to the fabric's ability to withstand water pressure without allowing moisture to penetrate. The minimum standard is a water column of 1,500 mm/m².

Enzyme washing is a special biopolishing treatment that makes fabrics clean, smooth and blemish-free, creating a surface that is soft to the touch and perfect for printing.

An ethically produced product that respects high social and environmental standards throughout the production process.

A product made using a sustainable production method that is more ethical and ecological, limiting the impact of the textile industry.

GLOSSARY

Product made in Spain.

Product made in France.

Product made in Italy.

Product made in Portugal.

Product without a brand label to allow easier decoration.

Number of 500 ml plastic bottles used to make this recycled polyester product.

PREMIUM QUALITY AND TRACEABILITY: RECYCLED POLYESTER BUSINESS BAGS

THE NEW KIALMA BY K-LOOP COLLECTION OFFERS A COMPLETE RANGE OF TOP-OF-THE-RANGE BUSINESS BAGS MADE FROM RECYCLED POLYESTER. BY INTEGRATING AWARE TRACEABILITY TECHNOLOGY, WE GUARANTEE TRANSPARENCY OVER THE COMPOSITION OF OUR PRODUCTS THROUGHOUT THE SUPPLY CHAIN: FROM PRODUCTION TO THE END CUSTOMER.

SUSTAINABILITY, STYLE AND TRACEABILITY

Discover the **Kialma by K-Loop** collection, an avant-garde collection of **professional bags and luggage**. Combine sleek design with recycled polyester construction and state-of-the-art traceability technology. Kialma stands out for its **top quality**, meticulous finishes and **wide selection of items**: backpacks, document bags, computer bags, tablet bags, bum bags, crossbody bags, tablet and document covers, document and laptop pouches, messenger bags, laptop bags, document bags, travel bags and vanity cases.

The use of **recycled polyester** allows a significant reduction in CO₂ emissions during manufacture compared to traditional polyester, demonstrating Kialma's sustainable commitment to the environment. **Transparency is at the heart of our approach**, guaranteeing the composition and traceability of our products from the production of the yarn to the final product. With our concept incorporating recycled polyester and **Aware™ tracers**, we offer the perfect blend of **eco-responsibility and innovation**. The Aware™ tracers, detectable via a hand scanner, provide each bag with a **digital passport**, allowing consumers to verify the authenticity of their purchases and boosting confidence in sustainable textiles.

Thanks to blockchain technology, we can ensure **complete traceability of our production chain**. Each product has a special label with a QR code, allowing direct access to our Aware™ platform to authenticate certifications via a smartphone.

K-Loop collection, recycled cotton

By using recycled polyester made from plastic bottles and cotton scraps from the manufacture of KARIBAN BRANDS clothing, the K-loop collection closes the loop on the circular economy. What's more, thanks to cutting-edge traceability technology (Trackers Aware™), it gives the end consumer the opportunity to follow the Kimood bag production process.

ki·mood

A woman with dark hair is seated on a wicker chair, holding a pink anthurium flower near her face. She is wearing a white ribbed tank top and wide-leg rust-colored trousers. A large, light grey tote bag is draped over her lap. The background is a plain, light grey wall, and the floor is covered with a white, draped fabric. The lighting is soft and directional, coming from the side.

KI5205

KI5205 / Hand-woven shopping bag

70% cotton/25% polyester. Shopper made from thread from recycled materials. Hand-woven using traditional looms from Bangladesh called "tant" looms. The traditional weaving gives the canvas a distinctive and unique handcrafted look. This bag is part of the "Handloom recycled project" collection that arose from a collaboration between the Kimood brand and the HandTouch company, a member of ECOTA, a fair trade organisation in Bangladesh. This item helps support the economy of families living in remote villages of Bangladesh, and the work of women in particular, thus helping to prevent these villages from being deserted. There is a label inside the bag with details about the project and there is also a space for decoration to add logos and/or messages.
